PSHE	Relationships	<p>Our star qualities make us special. We are all different and that is something to be celebrated.</p> <p>Respect means treating other people and their beliefs with care and understanding. Telling a friend what we appreciate about them makes them feel good. This is called a compliment. Being kind makes people happier. You can never run out of kindness, so don't be afraid to be kind to everyone. Kindness is like a boomerang, when we give it, it usually comes back to us. Our behaviour can affect other people. It is important to be polite, share and take turns when working with others or as part of a team. Most people have their best ideas when they work as a team. We learn best by listening, seeing things or doing things. We all have special people who help and care for us.</p> <p>Special people make us feel safe and comfortable. All families are different.</p>
RE	Christianity Introduction: holy book	<p>A religion is a group that share ideas and beliefs about how the world was made and follow a set of beliefs and follow a moral code Some people believe in God.
